

When it Comes to Health Insurance, Fidelis Care Makes Sure That No Child is Left Behind

When it comes to health insurance, just like in the classroom, no child should ever be left behind.

To make sure that no child in New York State is without health insurance, Fidelis Care offers the Child Health Plus program. Almost every child under 19 years of age is eligible for Child Health Plus. With the new expanded eligibility guidelines, more children than ever before are eligible for subsidized coverage.

Fidelis Care, the New York State Catholic Health Plan, is partnering with principals, educators, and parents in Catholic Schools to ensure that all children have access to quality, affordable health care. It's our mission!

Fidelis Care serves more than 675,000 members in 58 counties statewide. Currently, more than 43,000 health care providers are part of the Fidelis Care statewide network.

If you would like more information about Fidelis Care's free or low-cost Child Health Plus, Family Health Plus, or our Medicaid Managed Care programs, call our toll-free number 1-888-FIDELIS (1-888-343-3547) or visit fideliscare.org.
